THALION
CRÉATEUR DE COSMÉTIQUE MARINE

THALION laboratories draw super-powerful active ingredients for well-being and beauty from the heart of the Iroise Sea.

Heirs of a farming tradition and pioneers in cosmetic innovations, we promote the excellence of the French know-how.

Creator of patented marine active ingredients, innovative textures and exclusively manual signature treatments, we offer real beauty concentrates.

As the only prescription marine brand distributed exclusively by beauty professionals, THALION sublimates healthy and natural beauty.

The excellence of the harvester-manufacturer know-how recognized thanks to the **Entreprise du Patrimoine Vivant (EPV)** label.

We are different thanks to our strong territorial anchoring, the complete integration of seaweeds, from harvesting to manufacturing the end product, our unique know-how which combines tradition and innovation, as well as high quality standards.

SUBLIMATE
BEAUTY

PROFESSIONAL KNOW-HOW

Precise gesture

Each gesture is accurate. Based on the body physiology, our treatments are sensory, effective and inspired by the sea, like a **marine choreography**.

An expertise transmitted from Professional to Professional

We are convinced that training is essential to guarantee a **very high quality of treatments**.

A natural, healthy and effective beauty

From their origins, thanks to thalassotherapy, marine cosmetics have proven its effectiveness in **rebalancing the body and mind**.

A COMMITMENT TO THE SEA

Preserve the diversity of the resource

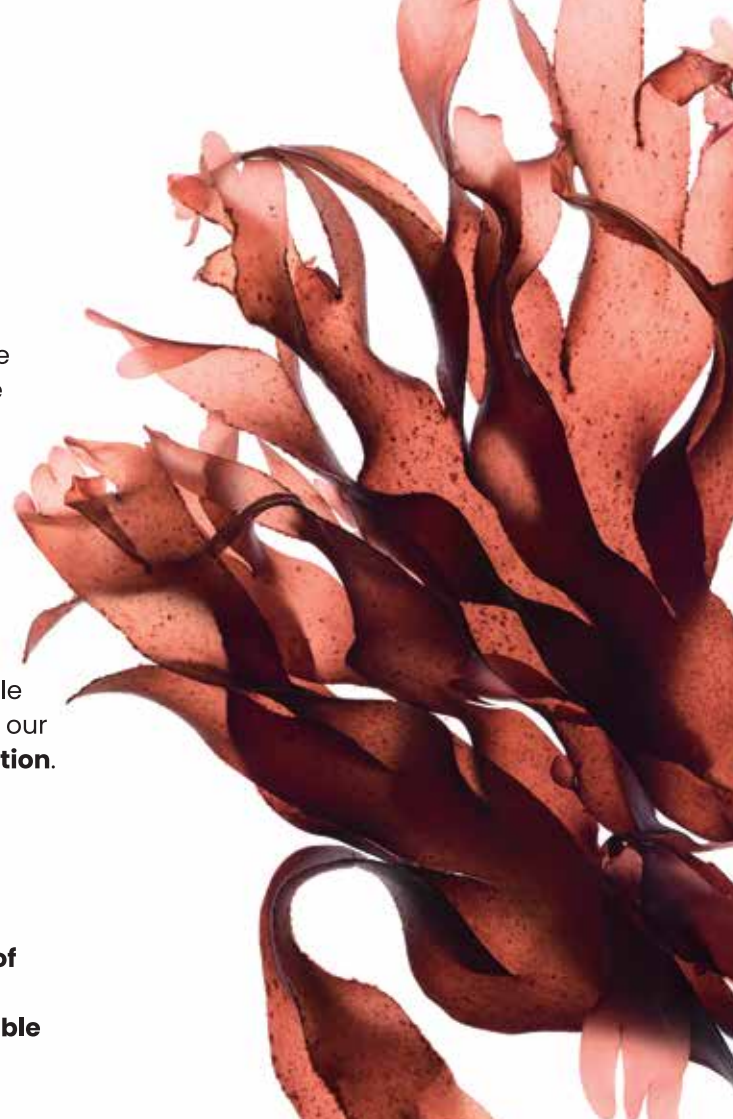

As a harvester, we are involved in all instances of resource preservation. We are involved in decisions concerning the definition of harvesting areas, quantities and **authorized species**.

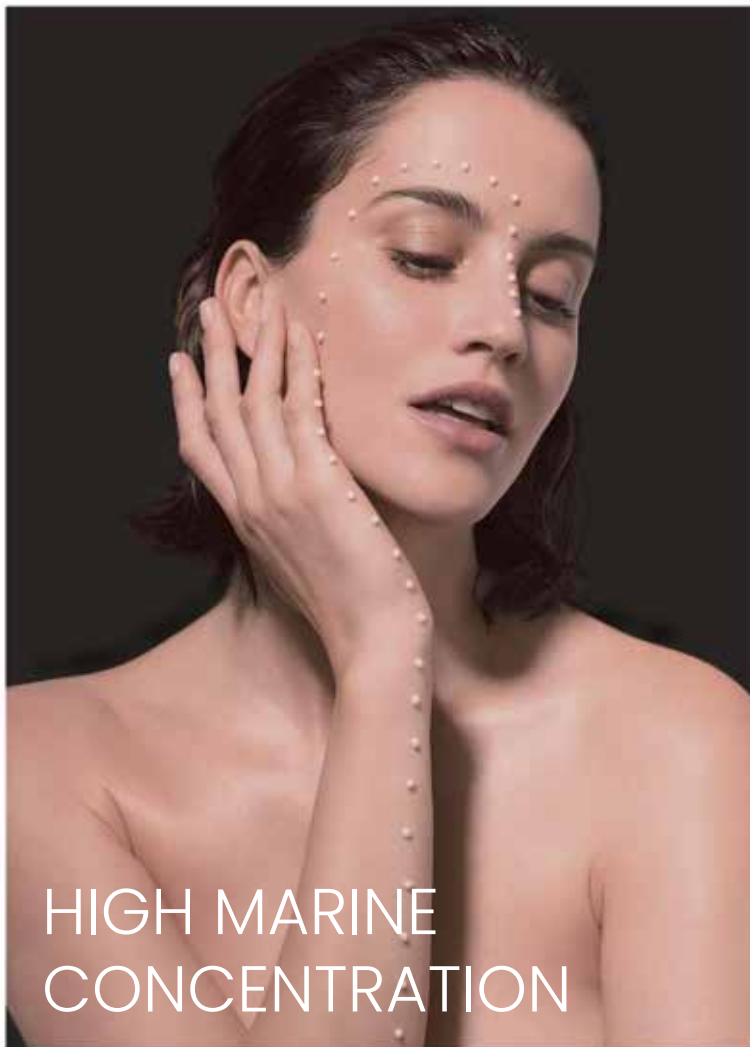

Preserve the quality of the resource

Based in Plouguerneau, in the heart of the Iroise Sea, classified as a **World Biosphere Reserve** by UNESCO, we benefit from an exceptional pure water and remarkable **biodiversity**. Close to the largest seaweed field in Europe, our factory ensures a **non-polluting and sustainable production**.

Preserve the sustainability of the resource

For more than 25 years, we have been harvesting our seaweeds by hand or by boat, **respecting the traditions of seaweed farming**. The cycle of reproduction, growth and residence of each species is respected in a **eco-responsible** way to promote its regrowth.
